

An easy-to-use label that keeps hospital staff safe and facilities compliant.

Order#: BCL500
Size: 4" x 4"
Quantity: 500 labels

- Protect staff members by clearly identifying biohazard risks.
- Insures compliance with OSHA Standard CFR 1910.1030 labeling requirements.
- Easy to apply and remove, even while wearing gloves.
- Low-tack adhesive leaves no residue.

Removable Biohazard/Clean Double-Layered Label with Low-Tack Adhesive

Good communication is a key factor when it comes to facility safety. As clean instruments are used and become contaminated, that change must be communicated to any staff member transporting the instruments. Peel the clean layer off to expose the biohazard label beneath.

CLN33
100 labels per pad.

NEW Removable Surface Disinfection Verification Label Pads with Low-Tack Adhesive.

APPLICATIONS INCLUDE:

- Case Carts
- Closed Container Instrument Sets
- Scope Transport Containers
