

Protect your probe, from itself.

Prevent cross-contamination with Dual-Cavity Transport Bags.

HEAT-SEALED STRIP
Separates the **BIOHAZARD** compartment from the **CORD** compartment.

DuPlex™

#CLN100

Removable labels with low-tack adhesive available.

#HLD250R

Use DuPlex™ Dual-Cavity Transport and Storage Bags when not all parts of internal probes and surgical instruments require High-Level Disinfection.

Cords and connectors need to be kept separate from the internal transducer that has been exposed to gross contamination.

DuPlex™ Dual-Cavity Instrument Transport Bags isolate dirty portions of instruments and prevent the cross-contamination of sections that are not high-level disinfected.
